

# What is a web browser?

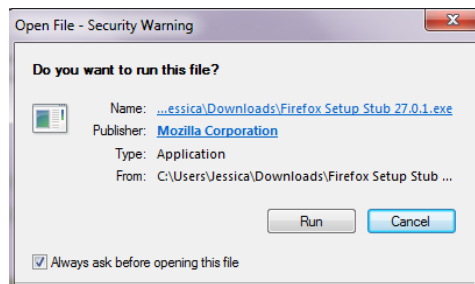

- A web browser is a program that allows you to visit websites.
- It is one of the most important programs on your computer.

Some web browsers are faster and more efficient than others.

If you have problems with how fast your internet or email is operating, try switching to a new web browser.

Switching browsers or installing a new browser is easy.

- Type the web address of the new browser into your current one and press enter
  - o [www.firefox.com](http://www.firefox.com)
  - o [www.opera.com](http://www.opera.com)
  - o [www.chrome.com](http://www.chrome.com)
  - o [www.safari.com](http://www.safari.com)
- Select install or download
- Select run on the window that pops up
- Restart your computer after the installation finishes
- You have a new web browser!

Here are the most common web browsers:
